

GOLD LINE

The Gold Line lasers are our entry-level products, cheap but still very effective and absolutely reliable.

These machines are made for those who are looking for an excellent price/quality ratio, keeping the highest quality of the laser beam.

Perfect for marking on metals, plastics and varnished materials.

TECHNICAL FEATURES

Laser Source	YTTERBIUM PULSED FIBER LASER
Wave Length	1064 nm
Output Power	20W - 30W
Pulse Width	90-120 ns
Pulse Frequency	20-60 KHz
Pulse Energy	0,5-1 mJ
Marking Area (X Y)	110x110 mm with standard focal lens 163 mm Optional: 175x175 mm with focal lens 254 mm 200x200 mm with focal lens 330 mm
Cooling	Air
Power Source	230 Vca Single-phase 50/60Hz
Electrical Consumption	400W
Marking Materials	Metals, plastics, varnished materials
